LUMBERMAN ENDORSE MCHORD.

Whereas, The Lumberman's Club, of Louisville, Ky., is in receipt of certain resolutions passed by the Bowling Green Business Men's Protective Association endorsing the Hon. C. C. McChord, Chairman of the Railroad Commission of Kentucky, for re-election, which resolutions are heartily endorsed by this Club, and

Whereas, The said Hon. C. C. McChord, has rendered signal service to the shippers of this State during his entire career and especially by reducing the Louisville rate twenty-five per cent, and thus putting our city and surrounding territory on an equality rate with the city of Cincinnati and by beginning, over ten years ago, the fight for interchangeable switching, and continually pressing same until a favorable decision was recently rendered by the Court of Appeals of Kentucky.

Now, therefore, be it resolved by the Louisville Lumberman's Club:

1st. That we recognize in the Hon. C. C. McChord a faithful, untiring and incorruptible public official who, by years of intelligent work and study, has equipped himself to be and now is one of the ablest railroad commissioners in the United States, with the ability and courage to do justice to both shipper and carrier.

2d. That as a club we disclaim any political allegiance with any party, our membership being composed of members of various political parties, but we take this action because we deem the matter one of business rather than politics, feeling it is the duty not alone of all shippers, but also of all public spirited citizens who desire the development of our State's great natural resources to give to Mr. McChord their loyal and active support.

3rd. We also endorse the record of Mr. C. C. Ferguson and A. T. Siler, associates of the Hon. C. C. McChord, from the other districts of our State.

4th. The Secretary is instructed to send a copy of these resolutions to C. C. McChord, A. T. Siler and Mr. C. C. Ferguson, and to the various lumbermen of this district and the daily papers of Louisville and the county papers of the State.

WOMEN GAMBLERS.

Marie Antoinette was a slave to cards. On one occasion she played for thirty-six hours at a sitting, with but an intermission of a couple of hours. "The play at the queen's table at Fontainebleau," wrote the Emperor, Joseph II., "was like that in a common gambling house; people of all kinds were there, and mingled without decorum; great scandal was caused by the fact that several of the ladies cheated." Anne Boleyn, Henry VIII's ill-fated queen, was never quite so happy as when playing for high stakes. The records of privy purse expenses are full of her winnings from her royal spouse, for she was a lucky player.

THE QUACKS OF PARIS.

A congress has been sitting in Paris to consider the question of quacks, says an English paper. The French capital abounds in them. Some of the Pasteur and Metchnikoff (neither of whom is to be numbered among the doctors), did marvelous work for science, while others are the merest charlatans. The competition is so terrible for the recognized healers that the most qualified is very likely to starve while the herbalist and the curer by suggestion make a large fortune.

One doctor in the quarter of Grenelle was so struck with this disagreeable fact that he put his diploma in his pocket and resolved to practice as a "natural healer." A complaint was made against him by the medical profession, and he was haled before the bench. "I am a doctor—here is my certificate," he said to the magistrate; "but, above all, do not tell anybody, otherwise my practice would be ruined."

WANTED.

Furnished rooms, for light housekeeping, by man and wife. Apply at Roundabout office.

BEER A QUICK KILLER.

In a recent speech a New Hampshire Senator quoted a well-known physician as saying: "I think beer kills quicker than any other liquor. My attention was first called to its insidious effects, when I began examining for life insurance. I passed as unusually good risks five Germans—young business men—who seemed in the best health, and to have superb constitutions. In a few years I was amazed to see the whole five drop off, one after another, with what ought to have been mild and easily curable diseases. On comparing my experience with that of other physicians I found they were all having similar luck with confirmed beer drinkers, and my practice since has heaped confirmation on confirmation."—The Advance.
